

February 2014

Press Release

NEW PRODUCT

Tom DIXON.

Beat

Some overdue additions to the popular BEAT family, inspired by the sculptural simplicity of traditional water vessels used in India.

Both table and floor lights incorporate the familiar hand-beaten shade. A slender articulated arm can be adjusted to direct light beam.

Solid brass componentry and iron sand cast bases create an iconic footprint for any interior. Available in black and brushed brass, as a floor or table light with a prominent on/off switch.
