Press Release

Mirror Ball

Blown like bubble gum into a mould, these plastic spheres are metalized internally to give a mirrored finish. This internal metallic design focuses the brightness from the bulb, projecting a soft, broad beam of light.

The external chrome surface has the added benefit of making the exterior highly reflective providing further character to an interior space.

With three different designs, pendant, stand, and floor standing, this versatile collection offers a lamp for every function.

The Mirror Ball pendants are available in three sizes; 25cm, 40cm, 50cm. The Floor version comes with a choice of 40cm and 50cm globe. Also available with Stainless steel stand for 40cm and 50cm globe.
